Wauchope

Acquisition Parameters

Recording System	I / O System II
Energy Source	Dynamite; 1 kg @ 9 m
Receiver Lines	60 m intervals; 240 m apart
Source Lines	60 m intervals; 480 m apart
Record Length	4 s
Sample Rate	2 ms
Multiplicity	24 fold
Bin Size	30 x 30 m
Survey Completed	1995

Processing Flow - Poststack

Amplitude recovery, trace edits
Refraction static solution and datum correction
Surface consistent deconvolution
Velocity analysis
Residual statics
3D trim statics
3D stack
3D Kirchhoff migration
Time variant filtering / final scaling
